* ☐ Comment: ☐ unable to explain the fact that on both
lists 7,800 metric tons of special gas (airplane fuel) are to be
shipped from Böhlen to USSR; it is probable, however, that only one
shipment of 7,800 metric tons is actually planned

- 25X1A (1) Comment: When the cross border shipping point is Forst, the liquid fuel is to be shipped to Breslau.
- 25X1A (2) Comment: This shipment was planned for November 1951 but is to be shipped in December 1951 (probably to Stettin).
- 25X1A (3) Comment: Special oil is to be shipped in aluminum vats. This probably indicates that special oil is not transformer or machinery oil as previously believed.
- 25X1A (4) Comment: Possibly Rex-Mineral-Gesellschaft, Paul Ziegler & Co., GmbH.
- (5) Comment: It is not known why oil consigned to Poland is to be shipped to West Germany.
